

APPLYING TO THE METAL FABRICATION PROGRAM?

BE READY TO DO THE ASSESSMENT!

TWO important steps before doing the assessment are:

➡ ***Use the review material.*** North Island College has review material that you can study to prepare for your assessment. The review materials are listed below.

➡ ***Know where and when to test:*** North Island College provides **group testing** on all campuses. Check with your campus for times.

☆ **Individual testing is available through the Access for Students with Disabilities program. Contact your local campus to arrange individual testing if you require it or to get more information.**

☆ ***Assessment is also available off campus***, applications are available on line:

http://www.nic.bc.ca/PDF_docs/OffCampusAssessment_App.pdf

REVIEW MATERIAL AND INFORMATION:

Metal Fabrication Assessment

- **Pre Apprentice Training Manual** – available from the bookstore \$45-50 or available through the libraries at all campuses
- This assessment has 4 sections: Applied Math, Geometry, Measuring and Spatial Reasoning.
- **NB Successful entry into the Metal Fabrication program also requires English 10**
(See NIC Calendar for more info)
