NORTH ISLAND COLLEGE

BYLAW NO. 4 2024-2025 Academic Year

DOMESTIC TUITION AND FEE BYLAW

This bylaw establishes principles for a sustainable tuition fee model for courses and programs. Under the *College and Institute Act*, the Board of Governors is responsible for approving tuition fees.

North Island College will take into consideration the following principles when setting Tuition and Fees:

Principles:

Tuition and Fees are the students' contribution to the overall costs of instructional courses and programs including materials and supplies used in the course delivery.

In setting Tuition and Fees, the following factors will be taken into account:

- The Mission and Values of the College, program duration and operating costs, available
 provincial funding for the program, and tuition and fees for comparable programming at other
 BC institutions.
- 2. Tuition and Fees for courses and programs that do not receive provincial funding will be set at a level that covers the full cost of the course or program, including a contribution to the operation of support services.
- 3. Programs which require specialized supplies or facilities may have fees levied to cover those additional costs.
- 4. Tuition and Fees for programs offered in partnership with other post-secondary institutions will be established with the partner institution(s).
- 5. The Tuition fee model will strive for simplicity.
- 6. Proposed Tuition and Fees for new programs will be brought forward to the Board as part of the credential approval process.
- 7. Tuition and Fees will comply with the Province of British Columbia's Tuition Limit Policy.

Scope:

This bylaw applies to domestic tuition and lab and supply fees for:

All courses and programs that lead to a credential;

Department of Accessible Learning (DAL) courses and programs.
